Consultation form on student financial aid

This questionnaire is part of a consultation process launched by ASSU this autumn. Its objective is the construction of a demand platform composed of the necessary improvements to the Quebec student financial aid program. Please note that you can fill out this form online at: <http://www.asse-solidarite.qc.ca/formulaires/afe>

Student financial aid problems and concerns

1) First, are you satisfied of the student financial aid given out by the government of Quebec?

2) In your opinion, what are the major gaps in the Quebec student financial aid program?

3) What do you think of the process leading to the allocation of loans and bursaries? Do you think that the amounts given out are enough or would be enough to satisfy your needs adequately?

4) Do you appreciate the method of payment used to give out financial aid? If your answer is no, what are your complaints?

Solutions to bring forward

5) According to you, what important improvements should be applied to the student financial aid program?

6) In your opinion, what criteria should be applied for students to be considered financially independent? Are there any other situations which would necessitate supplemental aid from the State?

7) Do you believe that amounts allocated to students should be modified or calculated differently? If yes, how?

8) According to you, what would an action plan to bring the government to satisfy student demands look like?
